

Understanding and Complying with the Foreign Trade Regulation Requirements

You Must Comply with the Foreign Trade Regulations

How well do you know the Foreign Trade Regulations (FTR) and the Automated Export System (AES)? Are you up to date on recent clarifications? Do you understand how to classify your commodities? It is imperative that you understand the new requirements of the FTR so you can avoid possible penalties and seizure of your commodities. Attending these educational webinars will provide you with the information to assist you with the exporting process.

Webinar Highlights

How to Classify Your Commodity: Learn about the harmonized system, classification tools, general rules of interpretations, and the Schedule B Manual

Using the Postal Service for International Shipping: Learn what you need to know for exporting small parcel shipments using USPS including country-specific guidelines, forms, costs, and how to protect and insure your package reaches its destination

2012 HS Classification Reform: Learn how the 2012 World Customs Organization reforms will impact your HS number and supply chain practices

How to find HS Codes, Duties, and taxes: Learn how to classify your product, find its harmonized code and compute duties and taxes

Export Filing Requirements: Learn the basics to understanding and reporting requirements found in the Foreign Trade Regulations
